Additionally, there have been some adjustments to how the website handles different screen sizes to improve the experience of using the system regardless of whether the user is accessing from a desktop or a mobile device.

3 MANAGEMENT AREA

The admin can go to https://portales-theatre.42web.io/management/ to access to the management area on the website.

Email: losportalestheatre@gmail.com

Password: enmuteam1

4 ADD PLAY

After logging in, the system takes the admin to the 'Add Plays" page, where the user can add a new play if they wish to the system.

Upcoming Shows

When a new play is added, it will show on the homepage at https://portales-theatre.42web.io/. These plays are sorted so that the nearest date appears first. Additionally, once the start date and start time. The play does not show anymore as the date is in the past.
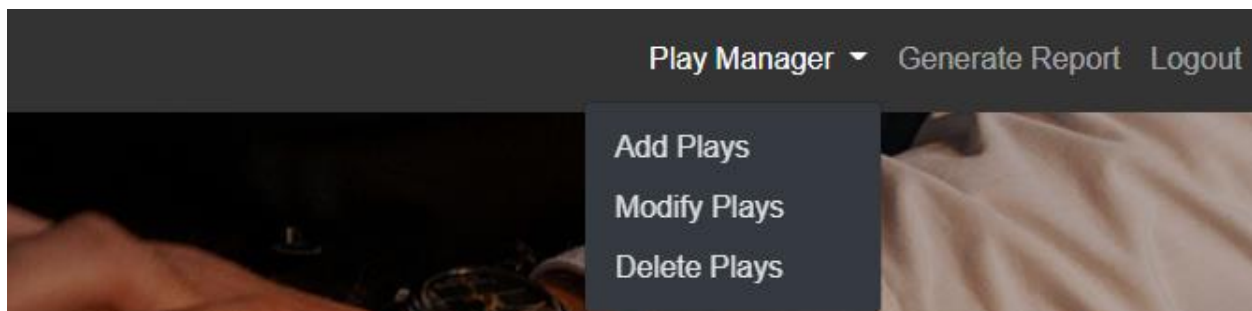

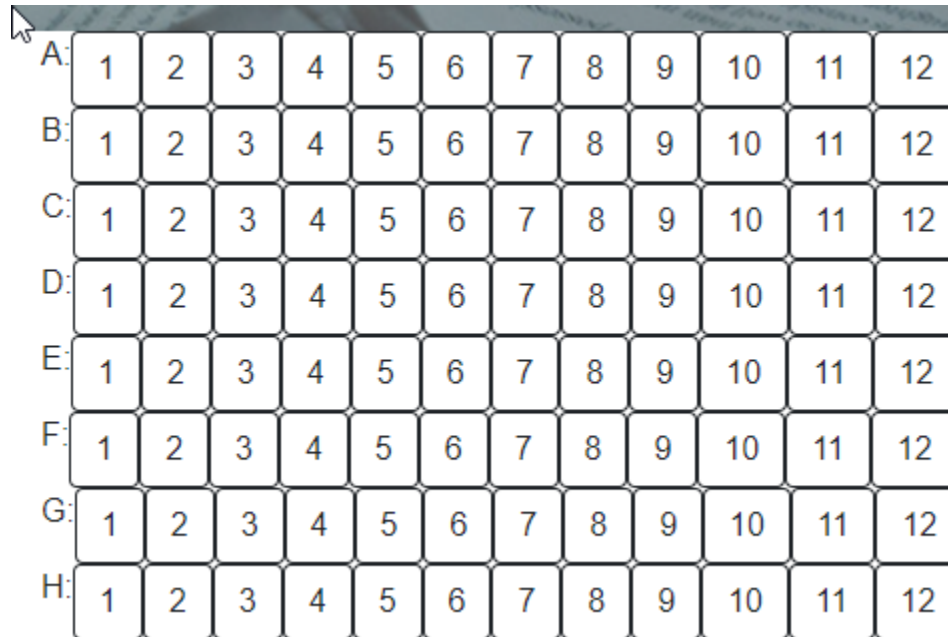

5   MANAGEMENT AREA NAV BAR

The navbar for the management area uses the same design but with different content. Under a dropdown, Play Manager, the admin can access the "Add Plays," "Modify Plays," and "Delete Plays" options. As of now, only the Add Plays are working; the other pages are still in development.

Another option in the navbar is "Generate Report," allowing the admin to generate sales reports. However, it is still in development as well.
